Experiment -1

AIM: To create an AWS free tier account to provision the resources.

Description:

Amazon Web Services (AWS) is a cloud computing platform that provides services such as computing, storage, databases, and networking over the internet. AWS Free Tier allows new users to explore and use selected AWS services within specified free usage limits. It helps users understand cloud computing without immediately incurring costs, provided they stay within the applicable limits.

Steps:

1. Open the official AWS website: https://aws.amazon.com/
2. Click on Create an AWS Account.
3. Enter your email address, password, and AWS account name.
4. Verify your email address using the OTP.
5. Enter the required contact details.
6. Complete the phone number verification process.
7. Select the required support plan.
8. Complete the account registration process.
9. Sign in to the AWS Management Console.
10. Explore the available AWS services and Free Tier offerings.

Output:

Successfully created an AWS account and accessed the AWS Management Console. The available cloud services can now be explored and used to provision cloud resources within the applicable Free Tier limits.
